

1STEP™

For Bermudagrass Areas

YOU'LL SOON SEE THE 1 STEP™ DIFFERENCE!

Pennington 1 Step® makes it easy to grow beautiful, thick, water-saving grass. Everything you need is premixed and ready to use all in one bag. Simply apply, water and watch it grow. Our super absorbent seeding mix holds and maintains moisture around the seed while providing the essential nutrients needed to grow beautiful, thick grass.

Pennington® Grass**

Pennington 1 Step® grows **[illegible] THICKER WITH HALF THE WATER** than ordinary grass seed* during the critical germination period.

PLANTING SPECIFICATIONS

PLANTING RATE: 1 lb. per 20 sq. ft. ([illegible])
PACKAGE COVERS UP TO: [illegible]

Planting Thickness: 1/8"	**Traffic Tolerance:** Excellent
Seedling Emergence: 7-21 days	**Drought Tolerance:** Excellent
Light Required: Full Sun	**Recommended Mowing Height:** 1-1½"

Thick, Beautiful Grass - Guaranteed!

1. PREPARE
Remove debris, then rake the soil to loosen and smooth the top layer.

2. APPLY
Spread seeding mix no more than 1/8" thick everywhere lush, beautiful grass is desired.

3. WATER (Most Important Step!)
Keep the soil moist! Water daily (twice a day if you have to) until grass sprouts and reaches about 3-4" tall. Mulch turns darker green when it's properly watered; if it's light green, add more water.

ADDITIONAL CARE TIPS

- Once your grass is 1/3 taller than the recommended mowing height you may begin mowing it.
- Avoid removing more than 1/3 of the total grass blade length at any single mowing to keep your grass thick and beautiful.
- Increase your mowing height in summer months to reduce grass stress.

IMPORTANT: Applying weed control products to grass prior to seeding can affect the seeds' ability to grow. Be sure to read and follow all manufacturer's recommendations and application instructions prior to applying any weed control products and prior to seeding. Additionally, do not apply any weed control products to newly seeded areas until the grass is established and has been mowed at least 3 or 4 times. Once newly seeded areas are established, you can begin a regular feeding schedule.
